

Sustainable Minerals Institute
and CRC TiME

Acid and Metalliferous Drainage Workshop

Sponsorship prospectus

19–21 October 2025
Brisbane

Hosted by

THE UNIVERSITY
OF QUEENSLAND
AUSTRALIA

In partnership with

The Australian Acid and Metalliferous Drainage (AMD) Workshop is dedicated to sharing fundamental knowledge on the causes, management and amelioration of the impacts of acid, neutral and saline drainage.

The Workshop and associated Short Course are for stakeholders who have an interest in mining environments and sustainable mining practices. It is an opportunity to share operational experiences and to observe and reflect on solutions and technology presented during the event.

Short Course
19 October, UQ Brisbane City

AMD Workshop
20-21 October, Customs House

AMD demographics

Sponsoring the AMD Workshop presents a unique opportunity to engage with industry professionals at all levels, as well as regulators, government officials, and academics working in this critical field.

Attendees at the Workshop and Short Course comprise:

- Executives
- Environmental Practitioners
- Regulators
- Scientists
- Engineers
- Mine Planning Professionals
- Industry
- Government
- Researchers
- Educational institutions
- Consultants
- Others interested in AMD management.

Reasons to sponsor the AMD Workshop:

Exposure to stakeholders interested in your services

Participation in an event designed to share knowledge and experience in AMD

Extensive networking opportunities
